Do you know where you're going to?
Do you like the things that life is showing you?
Where are you going to?
Do you know?

This bridge can only take
you half way there,
The last few steps you'll have
to take alone...
Shel Silverstein

We, the class of 1983, dedicate our yearbook to our parents, whose love and understanding have guided us through the good times, hard times, happy times, and sad times. Although we may or may not still be together as *one* family, with direction and support from each of you, we have been inspired to succeed and supported when failing.

Our words inadequately express the love and appreciation we have for all that you have done.

Thank you, Mom and Dad

History

Back in September of '79, we all walked through those long awaited, yet intimidating doors of the Martha's Vineyard Regional High School not knowing what we would encounter on the other side. What we found were other confused but smiling faces who in time would become some of our closest friends. We also found the big "Upper Classmen" whose shoes we couldn't even imagine walking in. But after surviving the Earth Science Classes and those feelings of inferiority, our only thought was that things just had to get better.

That they did, as we moved on to our Sophomore year we felt more confident and secure for we had one year under our belts. We started looking ahead to tradition and idea of a Junior Prom. We had a little money from our Freshman year in our account, so we tried to add to it; but who could think of raising money when we were so busy with meeting so many new people, going to all the 'high school parties', attending and participating in so many sporting events, and at the same time getting through all our "Sophomore Homework." We ended the year as a result without a lot of money, but with real anticipation for we knew that after the summer we would once again walk through the doors at the MVRHS, but this time in those shoes of the Upperclassmen.

Football, Halloween, and Toga parties started our third year off with a bang! And the unique personalities and humor of Rudy and Lof, our school's exchange students from Brazil and Denmark definitely added spice to everyone's year.

Well, then came time to get serious for the reality of the prom was just around the corner and one look at our bank account told us we had a lot of work to do and a huge challenge to meet. So we jumped in head first and through a combination of selling Christmas bulbs and banners, putting on a ham and bean dinner, surviving the car washes at the Dairy Queen and Cronigs, and the selling of refreshments at the ever so popular smash hit play Li'l Abner along with the guidance of Mr. and Mrs. Ross, our bank account was bursting. "Moonlit Moments" was not only a huge success, but also started up tradition again by having the prom back at the Harbor View.

We finally here, the one we have all been waiting for, our Senior Year, along with the last trip we will take through the doors of the Martha's Vineyard Regional High School.

September of '82 was the beginning of the end for us. It was the beginning of a year full of parties and good times with good friends, but also the beginning of a year full of important events and decisions. Now came the time when we must begin to shape our future. We were faced with the fact that within ten months or less we would be sent out into the world with our hopes and dreams in our hearts, and diplomas in our hands, but most importantly with our memories of all the friends we have made, the experiences we have shared and the lessons we have learned.
